Industry**

We Design, Engineer, and Deliver Market Success

Natural
raw material supplier

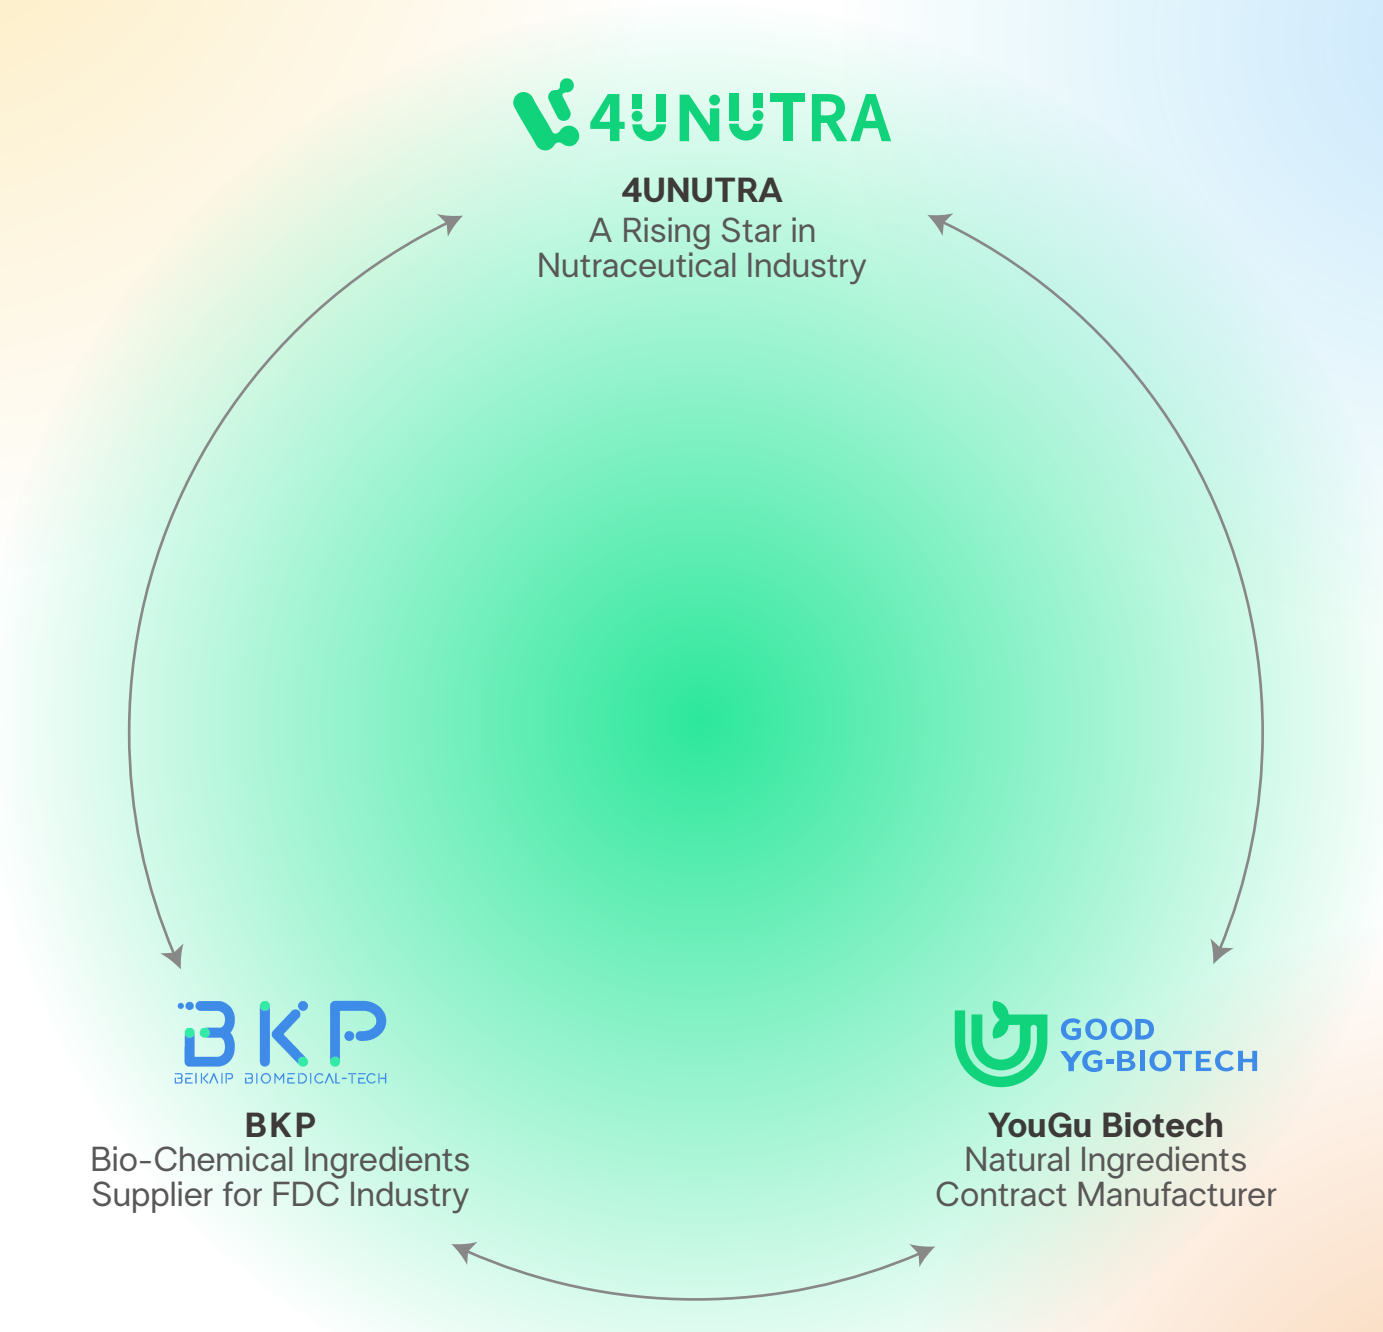

innovative
Ingredient Company

Sustainable
Growth Futures

4UNUTRA emerges as a rising star in the nutraceutical realm, powered by over **15** years of strategic groundwork by its founding team. This foundation includes the development of YouGu Biotech, a natural ingredients contract manufacturer, and BKP, a bio-chemical ingredients supplier for **FDC** industry.

Built upon this integrated and synergistic foundation, **4UNUTRA** was born-uniquely equipped with a resilient supply chain, agile demand response, top-tier manufacturing capabilities, and go-to-market consumer aesthetics.

From concept to commercialization, from the lab to the shelf, we architect not just products, but sustainable growth futures for your brand.

Service Advantages From Supply to Experience

Traditional partnerships often follow a linear "**commission-and-execute**" model. Collaborating with **4UNUTRA**, however, means embedding your brand into a stable, agile, aesthetically-driven, and value-enhancing ecosystem.

Through comprehensive, systematic customization across the entire chain, **4UNUTRA** fully demonstrates its superior capability in powering brands "from raw materials to market." We are dedicated to elevating your products from functional supplements into coveted brand experiences.

Guarding Wellness, Step by Step

We see ourselves as **guardians of the product**, not merely manufacturers. We select and collaborate deeply with **super factories** of outstanding qualifications. From raw material intake to every critical production stage, our quality control team works in close coordination and introduces verification from **internationally recognized third-party testing**. This ensures that what we deliver is a complete manufacturing solution that is **accountable, reliable, and trustworthy**.

PRODUCTION UNIT

R&D UNIT

- Bioavailability Optimization Platform
- Sensory Science & Flavor Platform
- Clean Label & Pure Formulation Platform
- Dosage Form Innovation & Process Scale-up Platform

- **Process Scale-up & Verification Platform:**
Ensures flawless translation of perfect lab formulas to mass production.
- **Stability & Compatibility Testing Platform:**
Tackles ingredient-packaging interactions to guarantee product quality throughout its lifecycle.
- **Ingredient Optimization & Substitution Platform:**
Mitigates supply chain volatility to ensure uninterrupted production and cost control.
- **Dosage Form Efficiency Enhancement Platform:**
Boosts production line speed and output through technological innovation.

- Co-Creation & Concept Development (R&D + Marketing Units)
- Prototype Design & Testing (R&D Unit)
- Process Scale-up & Validation (R&D + Production Units)
- Precision Manufacturing & Quality Control (Production Unit)

Softgel Solutions

Softgels are widely used in vitamins & minerals, botanical extracts, cardiovascular health, and vision support applications. 4UNUTRA 's high-efficiency automated softgel production line accommodates diverse fill weight requirements across various sizes, supporting customized product solutions.

Specialized Technology

- Dual-Release Capsule Technology
- Two-tone Softgel Technology
- Plant-based Softgel Anti-adhesion Technology
- Plant-based Softgel Matte Surface Technology
- High-load/High-viscosity Softgel Filling Technology

01

Advantages

- Two-tone Coloring And Custom Shapes Create Distinct Brand Differentiation
- Plant-based Softgel Technology Effectively Reduces High-temperature Sticking
- Matte Surface Enhances Chewing Pleasure and Sensory Experience
- Ensures The Stability of High-load and High-viscosity Formulations

02

Product Types

- Plant-based Softgels
- Gelatin Softgels
- Liquid-Filled Beads (Bursting Beads)
- Shaped Softgels
- Gel Candy
- Two-tone Softgels
- Enteric-coated Softgels

Gummy

Gummies can perfectly blend nutritional needs with great taste. If your target consumers include children, teenagers, and young adults, gummy products would be an ideal choice.

Specialized Technology

- Multimineral Uniform Suspension Technology
- Sugar-Free Gummy Formulation (No/Low Sugar Alcohols)
- Filled Gummy Manufacturing Process
- Dual-Color Gummy Process
- Gummy R&D Molding Platform
- Gummy Off-Flavor Masking & Flavor Modulation Technology

01

Advantages

- Proprietary Suspension Technology Ensures Uniform Dispersion of Multiple Minerals in Gummies
- Supply Sugar-Free Gummies Compliant with Chinese, EU, and USP Standards
- Antioxidants/Anti-Aging Liquid (Such as Collagen/Sodium Hyaluronate)
- Special Raw Material Processing Technology Effectively Masks Off-Flavors and Provides Oxidation Resistance
- Filled/Dual-Color Processes Enhance Formula Compatibility and Diversity
- A Wide Variety of Gummy Mold Solutions Are Available to Provide Customers with Exclusive Customization Services

CUSTOM POWDER/GRANULE PACKAGING

Product Delivery Is Where Your Brand Story Begins.

For you, the defining moment occurs when a consumer first encounters your product — and continues throughout the entire time the product accompanies them. Our Marketing Unit is not a static resource pack, but a dynamic strategic partner that grows alongside your brand.

Marketing Toolkit

- **Market Insights & Trend Reports:**
We share forward-looking insights on consumer demographics.
- **Scientific Marketing Content Package:**
Provides efficacy claim support based on clinical data, copywriting whitepapers, and product storytelling.
- **Channel-Tailored Solutions:**
Offers product and marketing strategy recommendations for different models like DTC, professional channels, and premium retail.
- **Training & Support:**
Delivers online/offline product knowledge training for your sales team and channel partners.
- **Crisis Management & Trust Preservation System**

Marketing Narrative System :

- **Brand Story Archetypes:**
Provides a library of market-validated narrative frameworks.
- **Content Marketing Asset Library:**
Supplies product efficacy content aligned with global consumer trend shifts.
- **Core Claim Matrix:**
Establishes a clear, layered, and logically sound communication structure.

MARKETING UNIT
