List of Trending Gummies for the First Half of 2026 – 4UNUTRA

Specially Curated Product Catalog

Executive Overview

This catalog presents a market-ready collection of trending functional gummies selected for the first half of 2026. Manufactured with flexible OEM/ODM capabilities, our product portfolio encompasses three primary gelling bases: **Pectin Gummies** (plant-based/vegan friendly), **Blended Gelling Agent Gummies** (chewy texture & nutrient-dense), and **Carrageenan Gummies** (plant-based gelatin alternative with superior heat stability).

- Pectin Base (18 SKUs):** 100% plant-based, clean-label, ideal for vegan and EU regulatory compliance. Highlights include Biotin, Iron, Multivitamins, GABA, Lutein, and Collagen formulations.
- Blended Gelling Agent Base (11 SKUs):** Optimized bite texture and active ingredient stability, featuring Elderberry, Calcium + VD3, Zinc, and Sodium Hyaluronate + Collagen.
- Carrageenan Base (6 SKUs):** High thermal resistance and plant-origin base, ideal for Lutein Ester, GABA, Acerola VC, and Probiotic Dietary Fiber.

1. Pectin Gummies Recommendation

Pectin-based gummies are 100% vegan-friendly, offering excellent temperature stability and clean flavor release.

| No. | Product Name                                  | Unit Weight | Shape | Key Active Ingredients / Formula Content |
|-----|-----------------------------------------------|-------------|-------|------------------------------------------|
