

 **4UNUTRA**
Medical Devices

Tailored Medical Devices & Solutions. Systematically Delivered.

ISO 13485 Certified Management System | Class 10,000 (ISO Class 7)
Cleanroom | Full Regulatory Compliance Support

Your Trusted Partner for OEM / Private Label Medical
Devices & Contract Manufacturing

ISO 13485 Certified Quality Management

All products are manufactured in strict compliance with **ISO 13485** and **GMP** standards. We provide comprehensive technical dossiers, including Technical Documentation, Clinical Evaluation Reports (CER), and real-time/accelerated stability data.

Versatile Dosage Form Manufacturing

Advanced production capabilities across Liquids, Topical Gels, Transdermal Patches, and Medical Consumables. Flexible formulation adjustments and custom active ingredient concentrations tailored to target market regulations.

End-to-End OEM & Private Label Solutions

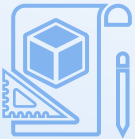

Turnkey packaging solutions—from blister packs and multi-lingual labeling to retail-ready display packaging. Scalable production capacity accommodating pilot trial runs to high-volume container shipments.

OUR CAPABILITIES

Custom Formulation & R&D

Adjusting active key ingredients and functional profiles to meet local regulatory and market requirements.

Packaging Design & Engineering

Versatile options including spray bottles, tubes, sachets, blister packs, and shelf-ready retail display packaging.

Regulatory & Compliance Dossier Support

We prepare CE/FDA technical documentation, clinical evaluations, and stability testing.

Scalable Manufacturing & Global Supply Chain

Strict ISO 13485 / GMP quality control throughout production. Reliable international air and sea freight logistics from small-batch trials to full container loads.

SERVICE PROCESS

• Liquids

Product Name	Intended Use	Available Sizes	Packaging
Liquid Wound Dressing	Forms a protective barrier over wounds, reduces exudate, and accelerates wound healing.	5ml – 500ml
